EXPERIENCE

Allgood, Tashkent—*Web development*

December 2022 - November 2023

I have been working on an ecommerce website as a middle-frontend developer. Rebuilt some pages such as parten, B2B services and some small sections. Furthermore, Created nasiya subdomain page from scratch and lighthouse score reached 100 and was increased by a 27% for desktop and by a 283% for mobile.

Aladdin Studio, Ahangaran—*Photograph*

March 2018 - December 2022

I have collaborated as a designer and photographer within a team setting, where I specialized in crafting user-friendly designs. Furthermore, I played a pivotal role in fortifying computer systems against a range of viral threats. This included configuring both Linux and Windows systems for optimal security and performance.

EDUCATION

Udacity— *Web development*

December 2020

I learnt the basics concepts of problem solving and programming languages including python and javascript. I did not only learn about htmlm css, javascript and angular but also about best practices and soft skills to become a better developer.

Udemy—*MERN stack*

September 2023

I systematically executed a series of impressive projects, with a primary emphasis on proficiently handling API requests throughout each step of development.
